

Community Support

Many thanks to **Deno and Debbie Originos** for allowing us to host our festival at Razberry's for the past seven years and for their continued generosity and support. We also extend our sincere gratitude to **Evan Samouhos** and Evco Mechanical for donating the electrical contracting services for our festival set-up and lighting each year.

*The festival committee also wishes to thank **ALL of our parishioners** who contributed so much of their time, talent, and treasure to make this event such a success. Many of you volunteered countless hours and made generous personal donations. Space in this publication would not suffice to list all of your names, but your heartfelt and selfless efforts are what makes the St. Anna community so special.*

We thank the following businesses for their food and product donations to our festival.
